Gift certificates for guided fishing trips are very popular gifts at any time of year. Anyone who enjoys the sport of fishing would be absolutely thrilled to receive the gift of an action packed day of fishing.

What better gift to give than an adventure in the great outdoors catching fish, sharing stories, and learning new fishing techniques from a professional guide. All fishing equipment, bait and tackle are provided. (Some fly fishing trips require rental of gear). All the recipient needs to bring is a valid fishing license and tag and something to eat and drink.

Purchase your gift certificate now for only \$25.00. This is a partial payment which allows us, when the time comes, to research the best possible guided trip to fit the recipients needs. AB Pro Guides Gift certificates are valid for up to two years from date of issue and will be credited toward any trip chosen, up to \$200.00 maximum, or a predetermined limit set by the purchaser.

When the recipient of the gift certificate decides on the date and species he or she would like to fish they simply call our office, preferably a minimum of three days in advance. At which time we will check current fishing conditions and arrange their trip with the best possible guide, nearest to their location, that can insure the highest chance of success for the type of fishing they would like to do.

When dates are confirmed and seats reserved, the balance for the total price of the trip would be due from the purchaser of the gift certificate. The purchaser would be notified when the trip is booked, prior to any charges. Most guided trips range from \$185.00 to \$200.00 per person for a full day of fishing. Ocean charters range from \$135.00 to \$185.00 per person depending on the location and type of trip chosen.

Note: Specialty trips including tuna, halibut, fly fishing, pack trips and overnight trips that exceed the \$200.00 limit would need to be approved/oked by the purchaser.
