DOG TRAINING

Dates for the spring are filling, so get your dog slotted. But we have room for 1 or 2 in April, and then a few in May. With the new dog training rules, the restrictions as to where and when one can train have been lifted, so I will have more flexibility when traveling around the state to train dogs. . We can hold your spot with a deposit and also get your dogs booked for the September tune up training and conditioning.

We can train all year long now and anywhere for the most part, so if interested in our dog training package at the Shooting Preserve email me for details, we have lots of water on some of the fields, so hunting in a little warmth is not as big an issue as it can be.

LODGING

The Ranch Motel, right off I-5,not really a bad place to hang, is in Rice Hill , Oregon, Yoncalla, OR zip code. My wealthiest clients stay there and love it. Link to info here. It is perfect for hunters. Nicer hotel next door, is is not a Motel 6 but goes on sign as "6 Motel," also link below, used to be a Best Western. Some East Indians run the Ranch, will do anything for you, the rooms are clean, very friendly people, great home style restaurant, where the locals eat, 100 to 200 feet from your room, so that is where I put my clients up. All GOOD!!!

Flying J or Pilot Truck stop nearby(believe they might have just changed name to other national chain that bought them out,) with just about anything you want, plenty of other services,.
